Dear Caste members,

I have great pleasure in inaugurating the "Online- Vastipatrak" initiative, wherein with the click of a finger, you will be able to retrieve any information relating to any family of our community. It will also provide lot many permutations and combinations based on the family details covered therein. You will be in a position to add and or delete any information/data relating to your family, and the "Vastipatrak" thus can be updated by all the caste members themselves. This pool of information will be available worldwide to any community member as it will be in "E-form". The caste will also be saved of the trouble to compile data every ten years and spend a huge amount for its publication.

This "**Online-Vastipatrak**" was my dream and I am very happy that Shri Sunilbhai R. Shah has through all his technical abilities and perseverance made it possible.

I congratulate Shri Sunilbhai for this very useful initiative and wish that all of you will make best use of this wonderful information for yours as well as communities benefit.

With best wishes,

26th October, 2017

Place: Ahmedabad
